**MAY 10, 2007**

**NOTICE**

There will be a meeting of the **Environmental Control Committee** of the Board of Commissioners of Cook County on **Tuesday, May 15, 2007** at the hour of **2:30 PM** in the Board Room, Room 569, County Building, 118 North Clark Street, Chicago, Illinois to consider the following:

**283674 THE COOK COUNTY ENERGY EFFICIENCY AND CLIMATE CHANGE MITIGATION ACT (PROPOSED ORDINANCE).** Submitting a Proposed Ordinance sponsored by Forrest Claypool, County Commissioner; Co-sponsored by Elizabeth Ann Doody Gorman, Mike Quigley, Roberto Maldonado, Anthony J. Peraica and Peter N. Silvestri, County Commissioners.

The following is a synopsis of the Proposed Ordinance.

**PROPOSED ORDINANCE**

**THE COOK COUNTY ENERGY EFFICIENCY  
AND CLIMATE CHANGE MITIGATION ACT**

**WHEREAS**, the Chicago Climate Exchange (CCX) provides a means for governments and firms to enter into a voluntary, legally binding agreement to reduce their emissions of six greenhouse gasses by 1.2 percent each year from 2006 to 2010; and

**WHEREAS**, the CCX operates under a standard "cap-and-trade" system: each emitter is allocated a certain number of credits and the number of credits is lowered each successive year, allowing entities that reduce their emissions below their requirements to sell credits and those that do not meet their requirements to purchase them; and

**WHEREAS**, many governments—including the City of Chicago, King County, Washington, and the State of Mexico—as well as many Fortune 500 companies—including Ford, IBM, and DuPont—have joined the CCX and committed themselves to reductions; and

**WHEREAS**, Chicago reduced its direct greenhouse gas emissions by nearly nine percent from its baseline (an average of between 1998 and 2001) and 2003, a reduction of over 30,000 tons of global warming pollution; and

**WHEREAS**, the City's steps to improve energy efficiency in City buildings led to the auditing and retrofitting of 15 million square feet of public buildings, allowing the City and sister agencies to save \$6 million annually.

Cook County shall enter into Phase II of the CCX, committing to a reduction of 1.2 percent of its greenhouse gas emissions each year between 2006 and 2010.

The County will deliver energy consumption and other relevant data to the CCX which will assist the County in creating an emissions baseline from future reductions will be measured.

The County will develop a strategic plan within three months of the passage of this ordinance that outlines where the County will cut greenhouse gas emissions by the amounts required—or exceeding the amounts required—in Phase II of CCX. This plan will be made publicly available through the President's Web site.

As the emissions reduction plan is implemented, the County will sell any extra emissions credits that it has on the CCX's online trading platform.
